### Profile Summary

Flutter developer specializing in **mobile app** creation. Skilled in **Firestore** and **API integration**. Passionate **problem-solver** dedicated to enhancing **user experiences** through **innovative technologies**.

### Work Experience

#### Flutter Developer

Mar – Apr 2024

Madrocket Technologies & Media

- Led the development of mobile applications using **Flutter** and **Firestore**, focusing on scalable and efficient solutions with seamless **API integration** using **FastAPI**.
- Developed **RESTful APIs** with FastAPI, enhancing **data flow** and **backend efficiency**.
- Collaborated on **UI/UX design** using **Figma**, translating designs into functional Flutter interfaces.
- Developed and **deployed APIs** using FastAPI, with successful **deployment** on **Koyeb** for enhanced scalability.
- Implemented Git for **version control**, streamlining collaboration and **code management**

#### Flutter Developer Intern

Dec 2023 – Apr 2024

Tech Elecon Pvt Ltd

- Collaborated with senior developers to implement best practices in mobile app development, creating applications using **Flutter**, **Sqflite**, and **state management** with **GetX**.
- Designed **UI/UX independently**, enhancing the app's visual appeal and user experience.
- Implemented **role-based authentication and access control**, improving app security and user management.
- Integrated external APIs like EmailJS** for email functionality, expanding app capabilities.

### Skills / IT Skills

- Mobile Development:** Flutter, Android Development, Dart, Getx, Bloc, Provider, Java, Xml
- Frameworks and Tools:** FastAPI, Firestore, VsCode, Docker, Koyeb, Git Version control
- Programming Languages:** Python, Java, C++, Dart, C#, OOPS
- Web Development:** HTML5, CSS3, jQuery, PHP, MySQL, WordPress

### Project

#### VVN Eats Application [Link](#)

Nov 2023

- Students needed to visit each dining hall to check the daily dinner menu, causing inconvenience and inefficiency.
- Developed a mobile application to streamline menu access, allowing students to view daily menus from all dining halls in one place. **Flutter**, **Dart**, **FastAPI**, **Firestore**, **BLoC** (State Management)
- Significantly enhanced daily convenience and **decision-making efficiency** for students.
- Eliminated the need to visit each dining hall individually, saving time and effort.

#### Finished Part Transfer( FPT) [Link](#)

Dec 2023-Apr2024

- Developed the Finished Part Transfer (FPT) Project to modernize finished part movement in manufacturing using **Flutter** and **SQFLite** for real-time tracking and coordination, replacing traditional paper-based methods.
- Implemented role-based access control and authentication to ensure secure user interactions.
- Integrated advanced barcode scanning functionality for efficient product **barcode scanning**.

#### Railway Ticket Checking Application

Dec 2021-Mar 2022

- Developed a ticket verification Android app, utilizing **Java**, **RETROFIT**, **PHP**, **Xml**, and **MySQL** to optimize the verification process, reducing conductor workload and enhancing operational efficiency

### Education

#### Sardar Patel University

2022 – 2024

Master of Computer Application

#### Veer Narmad South Gujarat University

2019 – 2022

Bachelor of Science in Computer Science

### Certificate

- Fundamentals of Software Development**
- Git Training**
- Fundamentals of Docker**
